

**Pam Walentynowicz, RN,  
BSN, MBA**

REGISTERED NURSE

Pam is a registered nurse who is currently involved in clinical research in Los Angeles, CA. She has been in practice since 1996. Pam attributes her success in demonstrating a strong work ethic, as well as having good mentors, professors, teachers, and preceptors.

In regards to her education, Pam earned her Bachelor of Science in Nursing degree from Tennessee State University. She also earned her Master of Business Administration degree from the University of Phoenix.

A registered nurse (RN) is a nurse who has graduated from a nursing program and met the requirements outlined by a country, state, province or similar licensing body to obtain a nursing license. RNs fulfill a variety of job duties. In addition to their primary role of treating and caring for patients, their responsibilities also include educating patients and the public about a variety of medical conditions, as well as providing emotional support and advice to the families of their patients. Other RN job functions include performing diagnostic tests and analyzing results, operating medical equipment, administering medications, recording patients' symptoms and medical histories, as well as assisting with patient rehabilitation and follow-up.
